

Appendices

Appendix A - The Clokey-Gumby Timeline

The Clokey Legacy, Gumby, and the Gatekeepers: A Timeline

A document compiling research into the intersection of the Clokey family's experience with Gumby, the children's entertainment industry gatekeepers, the Epstein network, and the broader pattern of censorship and suspicious deaths in 2017-2018.

Part 1: Art Clokey and Gumby — The Independent Creator

Who Art Clokey Was

- Created Gumby in the 1950s — one of the most recognized characters in American culture
- Pioneer of stop-motion clay animation
- Refused merchandising for 8 years: "I was a very idealistic person, and I didn't want to exploit children"
- Called Gumby "an act of love to children"
- Spiritual seeker — seminary student, Buddhist, follower of Sai Baba. Documentary about him titled *Gumby Dharma*
- Ran his own independent studio (Premavision) — never network-owned
- Also created *Davey and Goliath*, a Christian educational series for the Lutheran Church
- Trained more than half the animators who worked on Tim Burton's *Nightmare Before Christmas* — his people went to Pixar and Disney, but he stayed independent
- Died January 8, 2010, at age 88

Gumby's Philosophy

- Clay doesn't command; it becomes. It transforms.
- Gumby moved through his world not as a rigid hero but as a living metaphor
- Green — the color of life and growth — was deliberate

- His form resembles a sprouting seedling: legs like roots, arms like branches, head leaning toward the sun
- Gumby entered stories through the portals of books — imagination as a doorway into other worlds
- A quiet argument for freedom through creativity, not control

Part 2: The 1990s — Gumby Locked Out

The Movie That Couldn't Get Distribution

- Art Clokey produced 99 new episodes of *Gumby Adventures* (1988-2002) from his studio in Sausalito
- Completed *Gumby: The Movie* in **1992**
- **No major distributor would touch it for three years**
- Finally released in 1995 through Arrow Releasing — a tiny independent distributor — in just 21 theaters
- Grossed \$57,100 against a \$2.8M budget
- BUT: sold approximately 1 million copies on VHS — proving massive audience demand existed
- Toy Story released the same year — CGI replaced claymation as the industry standard
- The only thing missing was distribution access. The gatekeepers said no.

Who Controlled Children's TV in the 1990s

Nickelodeon / Viacom — Dominant force:

- **Geraldine Laybourne** — President of Nickelodeon (1984-1996)
- Built Nickelodeon into the dominant children's network: **56% of all kids TV viewership** — more than ABC, CBS, NBC, and Fox combined
- Hired **Dan Schneider** in 1994
- Later became President of Disney/ABC Cable Networks (1996-1998)
- **Appears in Jeffrey Epstein's flight logs** (February 2002 flight)
- Her husband **Kit Laybourne** also in flight logs — worked for MTV, Nickelodeon, Children's Television Workshop, Nick Junior
- **Both Laybournes sat on the board of KinderCare**, one of the largest childcare chains in America
- **Dan Schneider** — Hired by Laybourne
- Produced the biggest Nickelodeon shows from 1994-2019 (All That, Drake & Josh, iCarly, Zoey 101, Victorious)
- Exposed in 2024 docuseries *Quiet on Set: The Dark Side of Kids TV* for abusive behavior toward child actors
- Had unsupervised access to child actors for 25 years

- Fired after internal Viacom investigation
- **Sumner Redstone** — Chairman of Viacom (parent of Nickelodeon, MTV, CBS)
- Controlled the corporate structure above all of this
- Faced multiple lawsuits about sexual exploitation

Fox / News Corp:

- **Rupert Murdoch** — appears in Epstein's **black book** (contact list)
- Controlled Fox, Fox Kids, and later much of the entertainment distribution pipeline

Disney:

- Laybourne moved from Nickelodeon to Disney/ABC Cable in 1996 — gatekeeper at the two largest children's entertainment companies back to back

The Gatekeeper Map

Gatekeeper | Controlled | Epstein Connection

****Geraldine Laybourne**** | Nickelodeon (84-96), Disney/ABC Cable (96-98) | Flight logs (+ husband Kit)

****Kit Laybourne**** | MTV, Nick Jr, Children's Television Workshop | Flight logs

****Rupert Murdoch**** | Fox, Fox Kids, News Corp | Black book / contact list

****Sumner Redstone**** | Viacom (Nickelodeon parent), CBS, MTV | No direct Epstein link found; predatory corporate culture documented

****Dan Schneider**** | 25 years of Nickelodeon shows | No direct Epstein link; hired by Laybourne who is in flight logs

The Pattern

- To get distribution in children's entertainment in the 1990s, you needed these gatekeepers
- Art Clokey — who refused to exploit children, operated independently, and ran a studio based on love and spiritual principles — couldn't get through the door
- The people holding those gates had connections to a man running a child exploitation network
- Gumby had massive cultural recognition. The audience was there. The industry said no.

Part 3: The Epstein Operation Timeline

When Did It Start?

Period | Status

****Mid-1980s**** | Earliest documented victims – lawsuits include claims from 1985 involving victims as young as 13

****Early 1990s**** | Epstein cultivating relationships with powerful people – finance, politics, media, science. New York mansion and Palm Beach estate operational.

****1996**** | Maria Farmer reports to NYPD and FBI that Epstein and Maxwell sexually abused her and others. Describes ongoing child exploitation scheme. FBI does nothing.

****April 1998**** | Buys Little St. James island for \$7.95M

****1999-2002**** | Virginia Giuffre abused at mansions in New York, Palm Beach, and the island

****2002-2005**** | Federal prosecutors later allege exploitation of "dozens of minor girls" — some as young as 14

****2005**** | Palm Beach police finally begin investigating

****2008**** | Sweetheart plea deal — 13 months in county jail with work release

Key insight: The operation was shaping who had power in entertainment *before* the island. The island was where it became most visible. The network of influence — who got access, who got distribution, who got shut out — was built in New York and LA boardrooms throughout the late 80s and early 90s. The same years Gumby went dark.

How the Leverage Worked

1. **1980s — Build the trap:** Epstein cultivates relationships, compromising material collected
2. **Early 1990s — Activate the leverage:** Compromised people now hold gatekeeper positions. They favor their own network and starve outsiders. Distribution, funding, platform access flow through controlled channels.
3. **The mechanism doesn't require explicit orders.** Gatekeepers favor their network. Independent creators who refuse to play get shut out. The audience never knows there was an alternative.

Part 4: Joe Clokey — The Deals That Collapsed

Joe's Fight to Bring Gumby Back

- Joe Clokey served as president of Premavision/Clokey Productions
- Known as "Gumby's Little Brother" — caretaker of the Gumby empire after Art's death in 2010
- Spent years pursuing deals to bring Gumby back into mainstream media
- Pattern: deals would materialize, agreements would be reached, then they would be sat on or fall through for no apparent reason

The Collapsed Deals

Period | Company | What happened

Early 2000s | ****Disney**** | Deal fell through. (Geraldine Laybourne had been at Disney/ABC Cable 1996-1998)

Unknown date | ****Classic Media**** | Deal fell through

~2017 | ****Amazon**** | Deal fell through

March 2, 2018 | Joe Clokey dies | Brain bleed leading to cardiac arrest, age 56

Joe's Death

- Onset: February 2, 2018
- Death: March 2, 2018 — one month
- Public reports say cardiac arrest. Family knowledge: brain bleed that led to cardiac arrest
- Age 56 — young for both conditions
- No publicly known autopsy details or toxicology results

The Fox Acquisition

- **February 2022** — Fox Entertainment buys the entire Gumby universe from Joe Clokey's estate
- All rights: film, TV, streaming, merchandise, licensing, publishing. Everything.
- Fox is controlled by Rupert Murdoch — who appears in Epstein's black book
- Fox is now "reimagining" Gumby: 2D animation (not claymation), no longer Art Clokey's vision
- *Gumby Kids* being produced by Bento Box, written by someone from Disney's Mickey Mouse shorts and Netflix's Cuphead Show

The Pattern Completes

Date | Event

1950s-1990s | Art Clokey creates and maintains Gumby independently, refuses to exploit children

1992-1995 | Gumby movie can't get distribution through the gatekept system

2000s-2017 | Joe Clokey tries to bring Gumby back. Deals with Disney, Classic Media, Amazon all collapse

March 2, 2018 | Joe dies at 56. Brain bleed leading to cardiac arrest

July 2019 | Epstein arrested

February 2022 | Fox (Murdoch — Epstein's black book) buys Gumby from the estate

2024 | Gumby being "reimagined" — stripped of claymation, philosophy, and Art's vision

While the Clokeys were alive and holding the IP, Gumby couldn't get through the door. The moment the family could no longer protect it, it went to a company controlled by someone in Epstein's contact book.

Part 5: Methods — Induced Brain Bleeds

Declassified CIA Assassination Methods (Church Committee, 1975)

The "Heart Attack Gun":

- Revealed publicly by Senator Frank Church during televised hearings
- Fired a frozen dart of shellfish toxin (saxitoxin) at high speed
- Penetrated clothing, left only a tiny red mark
- Toxin melted into bloodstream and induced cardiac arrest
- Designed to be undetectable by autopsy

The Umbrella Gun:

- CIA weapons developer Charles Senseney (Fort Detrick, Maryland) testified about a poison dart gun disguised as an umbrella
- Fired through the webbing — silent, invisible in a crowd

Project MKNaomi:

- CIA and Army program to develop biological agents
- Poisons designed to mimic natural causes of death
- Fort Detrick was the development center

Methods That Could Induce a Brain Bleed

Anticoagulant poisoning:

- Warfarin or superwarfarins (brodifacoum, bromadiolone — rodent poisons)
- Increase risk of intracerebral hemorrhage 5-10x
- Mortality from anticoagulant-induced brain bleed exceeds 50%
- Superwarfarins are tasteless and colorless — can be added to food or drink
- Blood levels not readily detectable in standard tests
- A standard autopsy finding "cerebral hemorrhage" would likely not investigate the cause of the hemorrhage
- Only detectable if specifically tested for via liquid chromatography mass spectrometry (LC-MS/MS)

Blood pressure manipulation:

- Substances that spike blood pressure can rupture weakened blood vessels
- Sympathomimetic drugs, high-dose stimulants, hypertensive crisis inducers
- Autopsy finds "brain bleed caused by hypertension" and stops

What Would Show Evidence

What would have shown it at the time (2018):

- Abnormally elevated PT/INR (clotting times) in a man not on blood thinners
- Depleted vitamin K-dependent clotting factors (II, VII, IX, X)
- Direct serum testing for superwarfarins via LC-MS/MS
- These tests are only run if someone suspects poisoning

What could still be detected now (if buried, not cremated):

- Exhumation toxicology can detect substances years after burial
- Opioids: 100% detection rate after 9+ years
- Benzodiazepines: 60% after 9+ years

- Superwarfarins have extremely long half-lives (20-130 days) and bind tightly to tissue
- Best tissues: muscle, liver, bone marrow, hair

Critical action — medical records:

- California hospitals must retain records minimum 7 years
- Joe's records from February-March 2018 may still exist but the window is closing
- As next of kin, Sage has legal right to request: admission blood work, coagulation panel (PT/INR/PTT), toxicology screens, imaging reports, treating physician notes
- Check with Santa Barbara County Medical Examiner for autopsy records

Part 6: The 2017-2018 Pattern — Deaths and Censorship

Epstein-Connected Deaths in This Window

Date | Person | Connection | Cause

May 2017 | ****Leigh Skye Patrick**** | Epstein victim | Drug overdose, age 29

March 2018 | ****Stephen Hawking**** | Visited Epstein's island | Died at home, age 76 (had ALS)

****March 2, 2018**** | ****Joe Clokey**** | Held Gumby IP, deals kept collapsing through gatekept channels | Brain bleed → cardiac arrest, age 56

May 2018 | ****Joseph Recarey**** | Palm Beach detective who built the original Epstein evidence case | "Brief illness," age 50. No cause of death disclosed. 15 months before Epstein's arrest

Broader Suspicious Deaths of Investigators/Journalists

Date | Person | What they investigated | Cause

Oct 2017 | ****Daphne Caruana Galizia**** | Maltese corruption, Panama Papers | Car bomb

Feb 2018 | ****Jan Kuciak**** | Mafia ties to EU funding, Slovakia | Shot dead with fiancée, age 27

Oct 2018 | ****Jamal Khashoggi**** | Saudi government | Dismembered in Saudi consulate

Later Epstein-Connected Deaths

Date | Person | Connection | Cause

Aug 2019 | ****Jeffrey Epstein**** | — | "Suicide" in federal custody. Cameras malfunctioned, guards asleep

June 2020 | ****Steve Bing**** | Movie producer, talked to FBI about Epstein | Fell from 27th floor

Jan 2022 | ****John Connolly**** | NYPD detective, Epstein book author | Died at 78

Feb 2022 | ****Jean-Luc Brunel**** | French modeling agent, trafficking girls to Epstein, awaiting trial | Found hanged in Paris prison cell

May 2022 | ****Mark Middleton**** | Clinton advisor with Epstein ties | Found hanged and shot in Arkansas

Sept 2023 | ****Bill Richardson**** | Former NM Governor, named in Epstein files | Died in sleep at 75

2025 | ****Virginia Giuffre**** | Primary Epstein accuser and whistleblower | Reported suicide

The Censorship Wave of 2018

- **August 2018** — Alex Jones deplatformed simultaneously by Facebook, Apple, YouTube, Spotify, Vimeo, Pinterest, MailChimp, and LinkedIn in coordinated action
- **October 2018** — Facebook purged 800+ pages of independent media, claiming "inauthentic behavior" — many were legitimate alternative news outlets
- **2017-2018** — Facebook changed its algorithm to crush the reach of independent media and alternative content creators
- The Mises Institute called it "The Great Social Media Purge of 2018"
- Academic research describes this period as the emergence of "global digital authoritarianism"
- Law professor Glenn Reynolds dubbed 2018 "The Year of Deplatforming"

The Sequence

2017: Epstein victims and investigators start dying. Independent media still has reach.

2018: More connected people die (Recarey — the original detective; Joe Clokey — IP gatekeeper target). Social media platforms coordinate to wipe out independent media infrastructure. The channels that would have amplified an Epstein story are systematically destroyed.

2019: Epstein arrested (July). Epstein "suicides" in federal custody (August). The independent media that might have kept pressure on the story has already been gutted.

Part 7: The Iran-Israel Context (2025-2026)

Charlie Kirk's Shift on Israel (Summer 2025)

- Began questioning US-Israel relationship publicly after Gaza war
- Convened focus groups with young conservatives — found unconditional Israel support was losing them
- Said maybe the US should "decouple" from Israel
- Criticized AIPAC, supported AIPAC registering under FARA (Foreign Agents Registration Act)
- Wrote final letter to Netanyahu warning Israel was losing the conservative MAGA base — called it a "5-alarm fire"

The Pressure Campaign Against Kirk (July-August 2025)

- Reports allege Netanyahu offered Kirk \$150M for TPUSA — Kirk refused
- Pro-Israel donor Robert Shillman withdrew \$2M annual donation days before Kirk's death

- Billionaire Bill Ackman demanded Kirk cancel Tucker Carlson — Kirk refused
- Kirk received menacing messages from pro-Israel power brokers
- August 6 interview with Megyn Kelly — visibly outraged discussing intimidation
- Sources said Kirk had begun to "loathe" Netanyahu; described as "frightened"

Kirk's Anti-War Stance

- Lobbied Trump directly in the Oval Office (~June 17-20, 2025) against war with Iran
- Called Lindsey Graham's regime change push "pathologically insane"
- Warned the military-industrial complex was chasing its 30-year "white whale"
- Last words to Joe Kent in West Wing: "Joe, stop us from getting into a war with Iran"
- After June 22 strikes, publicly posted Tehran gave Trump "no choice" — contradicting his private position

Kirk's Assassination (September 10, 2025)

- Shot in the neck by sniper at Utah Valley University during TPUSA debate
- ~3,000 people present
- Tyler James Robinson, 22, from Washington, Utah — surrendered next day
- Prosecutors seeking death penalty, allege political motivation

The Nuclear Ultimatum Theory

- Former CIA officer John Kiriakou claimed Israel gave Trump an ultimatum before June 2025 strikes
- "Bomb Iran's nuclear facilities, or we'll nuke them ourselves"
- Iran's Fordow facility buried inside a mountain — only US GBU-57 bunker busters could reach it conventionally
- Kiriakou claims information from "the highest levels of the intelligence community"
- If true, Kirk's post "Iran gave President Trump no choice" may have referred to Israel's ultimatum, not Iran's actions

The War Timeline

Date | Event

June 12, 2025 | IAEA censures Iran; Iran announces third enrichment facility

June 13, 2025 | Israel begins Twelve-Day War with surprise strikes on Iran

~June 17-20 | Kirk in the Oval Office urging Trump not to escalate

June 22, 2025 | US launches Operation Midnight Hammer — B-2 bombers hit three nuclear sites

June 24, 2025 | Ceasefire

Sept 10, 2025 | Kirk assassinated

Feb 11, 2026 | Iran burns Baal statues at Islamic Revolution anniversary — anti-Israel/anti-US symbolism referencing Epstein

Feb 28, 2026 | US and Israel launch full-scale war on Iran, killing Supreme Leader Khamenei

March 2026 | War in fourth week, no clear end. Trump sends 15-point peace plan. Iran rejects direct talks.

The Kirk Conspiracy Theory

- Joe Kent (former National Counterterrorism Center director, resigned over Iran war) went on Tucker Carlson and insinuated Israel may have killed Kirk to remove anti-war opposition
- Kent claims "foreign ties" in the killing were not fully investigated
- Kent is now under investigation for these claims
- Iran, Russia, and China-linked networks amplified the theory — 6,000+ mentions in the week after the shooting
- The timeline — Kirk breaks with Israel lobby, refuses their money, opposes their war, gets killed, five months later the war starts — is why the questions persist

Sage's Connection

- Sage Clokey was a YAL state chair during this period
- On a national call for state chairs in June 2025, Sage disagreed with his boss Connor Harbok about the US bombing Iran — took the antiwar position
- A few days later, Sage was let go from YAL
- This became the catalyst for creating the Living Age — shifting from organizing within someone else's structure to building his own

Part 8: The Clokey Lineage

Three Arthurs

Arthur "Art" Clokey (1921-2010) — The Creator

- Formed Gumby from clay — shaped a symbol of freedom through transformation
- Operated independently, refused to exploit children
- Locked out of the distribution system controlled by people now connected to Epstein's network

Joe Clokey (1961-2018) — The Protector

- Spent years fighting to bring Gumby back through legitimate channels
- Every deal collapsed — Disney, Classic Media, Amazon
- Died at 56, brain bleed → cardiac arrest
- 16 months before Epstein arrested

Sage Clokey (present) — The Builder

- Third Arthur in the Clokey lineage
- Bioinformatics undergraduate at UC Santa Cruz

- Building the Living Age — open-source technology for living architecture, media explaining why voluntary order works
- Connecting the Clokey legacy of freedom through creativity to biology, bioinformatics, and voluntarism
- Building something that can't be gatekept — open-source, on GitHub, the philosophy encoded in the technology itself

The Through-Line

Art shaped clay into a living metaphor for freedom. Sage is building technology that designs with living organisms. The medium changed. The message didn't.

Art couldn't get distribution through their gates. Sage doesn't need their gates.

Blue lightsaber to green. Given to built.
